POST CIRCULAR.

The Post circular. London, Henry Hooper, 1838-39.

Fol. 14-14½ in. and 8°. 82 in. Nos. 1-[15], March 14, 21, 28, April 5, 24, May 4, 11, 25, July 1, 1838, Mar. 28, April 17, 30, June 28, 1839.

* * * No. 9, which is without year of publication, is octavo and the other numbers are folio. No. 13 is wrongly numbered "No. 14" and nos. 3, 5, 6, 8 and 10 are called double numbers. No. 10 is printed on the back of a large poster with the heading "Petitions for a uniform penny postage lie here for signatures" and nos. 4 and 12 contain illustrations of essays for stamps. There are two copies of no. 1, one dated "March 14, 1838" and the other "March, 1838". The latter has the words "Specimen of" above the title and the contents of pages 3, 4 are entirely different in the two editions. A second file of the first ten numbers is bound up in volume lettered "Papers relating to Unifrom Penny Postage, 1838-39" (nos. 5-17).

The editor of the "Post circular," Sir Henry Cole, K.C.B., left a collection of papers and essays of stamps connected with the introduction of uniform penny postage to the Victoria and Albert Museum. This collection contains two files of the "Post circular," one of which contains the following additional numbers: a "second edition" of no. 4 dated "April 5, 1838," part of the contents of which differ from the first edition of that number; two editions of no. 7 differing in the make up of the front page, one of which is perhaps an unproofed copy; and what is evidently a proof copy of no. 12 with the date "April 29, 1839". This file also contains three unproofed copies of no. 15, with two pages each and the date "Sept. 27, 1839," the contents of which are differently arranged in each case, a further copy of no. 16 differing in the make up from the other three, but consisting of two pages and dated "Oct. 11, 1839," and a copy of no. 16, which consists of four pages and has the date "Nov. 20, 1839". All the known collections of this paper only contain thirteen numbers and it seems, therefore, doubtful whether the nos. 15 and 16 were ever published or circulated. Mr. V. H. Morten has a copy of the second edition of no. 4 in his collection.

POST MAGAZINE.

The Post magazine; (Published every Saturday). Combining 1st. A magazine of useful information. 2nd. A post label. 3rd. A sheet of letter paper.

London, Wm. Pateman, 1840.

8°. 104 in.

* * * Each number consists of a sheet of paper for writing a letter upon and one to three leaves of printed matter of a non-philatelic

character. The back of the last leaf of the early numbers contains a rectangular space for the address and a small ornamental border with an adhesive one penny, black, Great Britain stamp attached in the right upper corner. The space for the address was so placed that the whole contents of the number could be folded up and sent through the post in the form of a letter-sheet. No. 1 is dated "July 25, 1840". In 1841 the journal was issued without a penny stamp attached, at a half-penny a number and this charge was later on raised to one penny. ~~Specimen of the issue of 1840 is in the collection of the British Museum.~~ As specimens of this interesting postcard experiment the library contains two different issues without number or date, which are probably imperfect; no. 14, dated "October 24, 1840" and no. 30, dated "December 5, 1840". The two last have the words "Guaranteed weekly supply—Eight thousand," below the title "Post Magazine". *Ms. St. Jour.* 7 (7).
