The honorable

Alexander Hamilton

Philadelphia

December 5th 1792

Sir,

Your letter of the 21st September, enclosing a copy of an Order of the Senate relative to the Salaries, Fees and Emoluments of Persons holding Offices under the United States, and the actual Expenses and Disbursements attending the Execution of their respective Offices for one Year, came to hand a few days ago: — You desire from me an Account of the Office held, as Governor of the Western Territory and Superintendent of Indian Affairs, embracing the above Objects, and for the period therein mentioned to end the first day of October last past: — in answer, Sir, I have to observe that, by the Resolution of Congress of the 31st of October 1787 the Office of Superintendent of Indian Affairs for the northern Department was united with that of Governor of the Western Territory, and the compensation that had been attached to that Office was added to the —
Salary

Salary of the Governor, making on the whole -
two thousand Dollars. — That, since the establish-
ment of the present Government, there has been
no Appointment of a Superintendent — and that,
hitherto there has been no Fees, nor Emolument of
any kind, beside the Salary.

It is not possible for me to give you,
at this time an account of the Expenses that regularly
attend the discharge of the Office annually — nor
of the Disbursements I have actually made — ~~but~~
the last have been heavy, and have absorbed nearly
the whole of the Salary. But, as a part, at least, of
those Disbursements are out of the usual course,
having been incurred in the discharge of Duties
especially directed by Congress. They cannot be
fairly stated as incident to the Office, and I do
expect a reimbursement.

The regular Expenses of the Governor
will, however, be considerable for some years to come;
for, the Settlements are so distant and unconnected
with each other — the Communications between them so
difficult — the Manners of the People so dissimilar,
as well as their Languages different, that, it seems
to

to one, to be able to accommodate them: to their
different Situations, it will be necessary frequently
for the Governor of that Territory to visit all the
Settlements once a Year at least, notwithstanding
that the Extremes of them are nearly a thousand Miles
apart. — His Expenses on these Receptiones cannot
be estimated at less than five hundred Dollars, espe-
cially when it is considered that, on the front Settlements
bordering on the Wabash and Mississippi, Money
is of less value than, perhaps, on any other part of the
World: — That, together with a small Sum for
Stationery, House Rent, and Postage of Letters will
form the whole Disbursements for the Government
properly, and should be considered as an annual
Expense, altho. in present Circumstances, it may
not be incurred. The Disbursements on this part
what respect the Indians cannot be conjectured
as they depend upon Circumstances entirely ^{inference} — there
is at present no regular Expense attending it, that
I know of, except a Salary of eighty Pounds p^a. Annuum
to an Interpreter at Pittsburgh — He was
appointed by me; but, whether he is worth
and

and or dispensed, I am not informed.

I have the honor to be

Yours

Your very humble servant

Sir

On my return home, I found your letter of the 6th instant. My answer is short; being no more, than this, that there is not a single fee or emolument incident to my office; that ^{I have paid} the expenses of my office without taking any account, as I expected no retribution; and that my salary is 1900 dollars per annum.

I have the honor, sir, to be
