CHAP. 57.—An Act To give effect to the award rendered by the Tribunal of Arbitration, at Paris, under the treaty between the United States and Great Britain concluded at Washington, February twenty-ninth, eighteen hundred and ninety-two, for the purpose of submitting to arbitration certain questions concerning the preservation of the fur seals.

Fur-seal arbitration.
Preamble.

Whereas the following articles of the award of the Tribunal of Arbitration constituted under the treaty concluded at Washington the twenty-ninth of February, eighteen hundred and ninety-two, between the United States of America and Her Majesty the Queen of the United Kingdom of Great Britain and Ireland were delivered to the agents of the respective governments on the fifteenth day of August, eighteen hundred and ninety-three:

Art. 1.

ARTICLE 1.

Killing, etc., fur
seals forbidden.

The governments of the United States and Great Britain shall forbid their citizens and subjects respectively to kill, capture, or pursue at any time, and in any manner whatever, the animals commonly called fur seals, within a zone of sixty miles around the Pribilof Islands, inclusive of the territorial waters.

The miles mentioned in the preceding paragraph are geographical miles, of sixty to a degree of latitude.

Art. 2.

ARTICLE 2.

Closed season for
killing, etc., seals in
Pacific Ocean.

The two governments shall forbid their citizens and subjects respectively to kill, capture or pursue, in any manner whatever, during the season extending, each year, from the first of May to the thirty-first of July, both inclusive, the fur seals on the high sea, in the part of the Pacific Ocean, inclusive of the Bering Sea, which is situated to the north of the thirty-fifth degree of north latitude, and eastward of the one hundred and eightieth degree of longitude from Greenwich till it strikes the water boundary described in article one of the treaty of eighteen hundred and sixty-seven between the United States and Russia, and following that line up to Berings Straits.

Art. 3.

ARTICLE 3.

Restriction of seal-
ing to sailing vessels.

During the period of time and in the waters in which the fur-seal fishing is allowed, only sailing vessels shall be permitted to carry on or take part in fur-seal fishing operations. They will however be at liberty to avail themselves of the use of such canoes or undecked boats, propelled by paddles, oars, or sails, as are in common use as fishing boats.

Art. 4.

ARTICLE 4.

License, etc.

Each sailing vessel authorized to fish for fur seals must be provided with a special license issued for that purpose by its Government, and shall be required to carry a distinguishing flag to be prescribed by its Government.

Art. 5.

ARTICLE 5.

Record of opera-
tions.

The masters of the vessels engaged in fur-seal fishing shall enter accurately in their official log book the date and place of each fur-seal fishing operation, and also the number and sex of the seals captured upon each day. These entries shall be communicated by each of the two governments to the other at the end of each fishing season.

Art. 6.

ARTICLE 6.

Use of nets, etc.,
forbidden.

The use of nets, firearms and explosives shall be forbidden in the fur-seal fishing. This restriction shall not apply to shotguns when such fishing takes place outside of Behring Sea, during the season when it may be lawfully carried on.

ARTICLE 7.

Art. 7.

The two governments shall take measures to control the fitness of the men authorized to engage in fur-seal fishing; these men shall have been proved fit to handle with sufficient skill the weapons by means of which this fishing may be carried on.

Skill of fishermen.

ARTICLE 8.

Art. 8.

The regulations contained in the preceding articles shall not apply to Indians dwelling on the coast of the territory of the United States or of Great Britain, and carrying on fur-seal fishing in canoes or undecked boats not transported by or used in connection with other vessels and propelled wholly by paddles, oars or sails and manned by not more than five persons each in the way hitherto practiced by the Indians, provided such Indians are not in the employment of other persons and provided that, when so hunting in canoes or undecked boats, they shall not hunt fur seals outside of territorial waters under contract for the delivery of the skins to any person.

Fishing by Indians.

This exemption shall not be construed to affect the municipal law of either country, nor shall it extend to the waters of Behring Sea or the waters of the Aleutian Passes.

Municipal laws not affected.

Nothing herein contained is intended to interfere with the employment of Indians as hunters or otherwise in connection with fur sealing vessels as heretofore.

Employment of Indians.

ARTICLE 9.

Art. 9.

The concurrent regulations hereby determined with a view to the protection and preservation of the fur seals, shall remain in force until they have been, in whole or in part, abolished or modified by common agreement between the governments of the United States and of Great Britain.

Continuance of regulations.

The said concurrent regulations shall be submitted every five years to a new examination, so as to enable both interested governments to consider whether, in the light of past experience, there is occasion for any modification thereof.

Modifications.

Now therefore, be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled, That no citizen of the United States, or person owing the duty of obedience to the laws or the treaties of the United States, nor any person belonging to or on board of a vessel of the United States, shall kill, capture, or pursue, at any time, or in any manner whatever, outside of territorial waters, any fur seal in the waters surrounding the Pribilof Islands within a zone of sixty geographical miles (sixty to a degree of latitude) around said islands, exclusive of the territorial waters.

units, and is represented by the resistance offered to an unvarying electric current by a column of mercury at the temperature of melting ice fourteen and four thousand five hundred and twenty-one ten-thousandths grams in mass, of a constant cross-sectional area, and of the length of one hundred and six and three-tenths centimeters.

Current. Ampere. Second. The unit of current shall be what is known as the international ampere, which is one-tenth of the unit of current of the centimeter-gram-second system of electro-magnetic units, and is the practical equivalent of the unvarying current, which, when passed through a solution of nitrate of silver in water in accordance with standard specifications, deposits silver at the rate of one thousand one hundred and eighteen millionths of a gram per second.

Motive force. Volt. Third. The unit of electro-motive force shall be what is known as the international volt, which is the electro-motive force that, steadily applied to a conductor whose resistance is one international ohm, will produce a current of an international ampere, and is practically equivalent to one thousand fourteen hundred and thirty-fourths of the electro-motive force between the poles or electrodes of the voltaic cell known as Clark's cell, at a temperature of fifteen degrees centigrade, and prepared in the manner described in the standard specifications.

Quantity. Coulomb. Fourth. The unit of quantity shall be what is known as the international coulomb, which is the quantity of electricity transferred by a current of one international ampere in one second.

Work. Joule. Sixth. The unit of work shall be the Joule, which is equal to ten million units of work in the centimeter-gram-second system, and which is practically equivalent to the energy expended in one second by an international ampere in an international ohm.

Power. Watt. Seventh. The unit of power shall be the Watt, which is equal to ten million units of power in the centimeter-gram-second system, and which is practically equivalent to the work done at the rate of one Joule per second.

Induction. Henry. Eighth. The unit of induction shall be the Henry, which is the induction in a circuit when the electro-motive force induced in this circuit is one international volt while the inducing current varies at the rate of one Ampere per second.

In case of failure to make amicable settlement with any occupant, such compensation shall be determined by the appraisement of three disinterested referees, to be appointed by the President of the United States, who, before entering upon the duties of their appointment, shall take and subscribe before competent authority an oath that they will faithfully and impartially discharge the duties of their appointment, which oath, duly certified, shall be returned with their award. In case the referees can not agree, then any two of them are authorized to make the award. Either party being dissatisfied with the finding of the referees shall have the right, within ninety days after the making of the award and notice of the same, to appeal by original petition to the courts, where the case shall be tried de novo. When proceedings have been commenced in court the railway company shall pay double the amount of the award into court to abide the judgment thereof, and then have the right to enter upon the property sought to be condemned and proceed with the construction of the railroad. Each of such referees shall receive for his services the sum of four dollars per day, for each day they are engaged in the trial of any case submitted to them under this Act, with mileage at the rate of five cents per mile. Witnesses shall receive the usual fees allowed by the courts of said nations. Costs, including compensations of the referees, shall be made a part of the award and be paid by such railroad company. |

Congress hereby reserves the right to regulate the charges for freight and passengers on said railroad and messages on said telegraph and telephone lines until a State government or governments shall exist in said Territory, within the limits of which said railroad or part thereof shall be located, and then such State government or governments shall be authorized to fix and regulate the costs of transportation of persons and freight within their respective |

Said company shall also pay, as long as said Territory is owned and occupied by the Indians, to the Secretary of the Interior the sum of fifteen dollars per annum for each mile of railway it may construct in said Territory. Nothing in this Act shall be construed to prohibit Congress from imposing taxes upon said railroad, nor any Territory or State hereafter formed through which said railway shall have been established from exercising the same power as to such part of said railway as may lie within its limits. Said railway shall have the right to survey and locate its railway immediately after the passage of this Act: *Provided further,* That if said right of way shall pass over or through any land allotted to an Indian in accordance with any law or treaty, it shall be the duty of the Secretary of the Interior to provide for obtaining the consent of such allottee or allottees to said right of way and to fix the amount of compensation to be paid such allottees for right of way and for damages sustained by them by reason of the construction of the road; but no right of any kind shall vest in said railway company to any portion of said right of way passing over or through any such allotted lands until the compensation herein provided for shall be fixed and paid.

Whereas a certain tract of land was duly surveyed and set apart, in the year 1893, by the United States in fulfillment of the agreement, on the part of the United States, to be performed as set forth in said article 10 of said treaty of 1855, as aforesaid, which said tract of land is known as the Wenatshapam Fishery, and is described as follows, to wit:

ARTICLE II.

In consideration of the foregoing cession and relinquishment the United States hereby agrees to pay or expend through their Indian Agent, Yakima Agency, twenty thousand dollars, which said sum is to be deposited in a United States depository for their use and benefit as soon as approved by Congress, and subject to their order, the Indians reserving the right to dispose of said money as they may decide in general council to be held by them and for that purpose. After the ratification of this agreement by Congress and the further consideration that the Indians known as the Wenatshapam Indians, residing on the Wenatchee River, State of Washington, shall have land allotted to them in severalty in the vicinity of where they now reside, or elsewhere, as they may select, in accordance with article 4 of the general allotment law.

[No. 31.] Joint Resolution Granting full permission to the State of Maryland and to the several State courts within the city of Baltimore to occupy the old United States court-house in the city of Baltimore for the period of five years.

Preamble.

Whereas consent to the acquisition by the United States of the title to the ground upon which the old United States court-house in the city of Baltimore was erected was given by the State of Maryland by the act of the general assembly of said State, passed at the session of eighteen hundred and fifty-six, chapter one hundred and seventy-six; and

Whereas by said act jurisdiction over the said ground was ceded to the United States Government, reserving, nevertheless, to the State of Maryland concurrent jurisdiction over said ground so far as may be necessary to authorize the service thereon of process issued by any court or officer of said State and the punishment of said State of crimes thereon committed; and

Whereas the said old court-house building is not now occupied or needed for any purpose by the United States Government; and

Whereas pending the construction of the new court-house in the city of Baltimore, for the use of the State courts within said city, the State of Maryland desires to obtain the privilege of occupying said old United States court-house building for the purpose of holding therein the sessions of the State courts within the said city; and

Whereas at the time the United States was acquiring title to the square bounded by Calvert, Lexington, North, and Fayette streets in Baltimore city, for the purpose of erecting thereon a Government building to contain the post-office and the United States circuit and district courts, the mayor and city council of Baltimore made a gift to the United States of two lots of ground forming part of the said square, valued at over fifty thousand dollars: Now, therefore, be it

Resolved by the Senate and House of Representatives of the United States of America in Congress assembled, That full permission be, and the same is hereby, granted to the State of Maryland and to the several State courts within the city of Baltimore to occupy the said old United States court-house building for the period of five years from the time such occupation shall begin, for the purpose of holding the sessions of said courts therein, and that during said period concurrent jurisdiction, so far as is necessary, over said property be, and the same is hereby, ceded to the State of Maryland for said purpose, so that the sessions of said courts in said old court-house building may be during said period fully legalized: *Provided however,* That said building shall be kept in good repair, and be insured to a reasonable amount for the benefit of the United States, all at the expense of the State of Maryland, and that said building shall at the end of the period of five years be returned to the United States, by the said State of Maryland, in as good condition as at the time it was received by the said State of Maryland.

And it is further resolved that the Act of Congress approved July ninth, eighteen hundred and ninety, providing for the sale of said building, be suspended for and during said term of five years.

[No. 40.] Joint Resolution To establish an observatory circle as a provision for guarding the delicate astronomical instruments at the United States Naval Observatory against smoke or currents of heated air in their neighborhood and undue vibrations from traffic upon the extension of public thoroughfares in the vicinity, and for other purposes.

Preamble.

Whereas in order to insure within practicable limits the success of astronomical observations, it is of the highest importance that the delicate instruments employed in that work be guarded against smoke or currents of heated air in their neighborhood, and also against undue vibrations from traffic upon public thoroughfares, all of which can only be attained by controlling a reasonable area of ground in the immediate vicinity of the buildings wherein the said instruments are mounted ; and

Whereas from experiments it has been ascertained that a circle described with a radius of one thousand feet from a central point of the said buildings is the least inclosure that will accomplish such desired protection : Therefore,

Resolved by the Senate and House of Representatives of the United States of America in Congress assembled, That no street, avenue, or public thoroughfare in the neighborhood of the buildings erected upon the United States Naval Observatory grounds, Georgetown Heights, District of Columbia, shall extend within the area of a circle described with a radius of one thousand feet from the center of the building known as the clock room of the said Observatory.
