In case of failure to make amicable settlement with any occupant, such compensation shall be determined by the appraisement of disinterested referees, to be appointed, one (who shall act as chairman) by the President, one by the principal chief of the Choctaw Nation, and one by said railway company, who, before entering upon the duties of their appointment, shall take and subscribe, before a judge or clerk of a United States court, or United States commissioner, an oath that they will faithfully and impartially discharge the duties of their appointment, which oath, duly certified, shall be returned with their award to and filed with, the Secretary of the Interior within sixty days from the completion thereof; and upon the failure of either party to make such appointment within thirty days after the appointment made by the President, the vacancy shall be filled by the judge of the United States court for the central district of the Indian Territory upon the application of the other party. If such appeal is not taken as hereinbefore set forth, the award shall be conclusive and final, and shall have the same force and effect as a judgment of a court of competent jurisdiction.

Said company shall also pay, so long as said Territory is owned and occupied by the Choctaw Indians, to the Secretary of the Interior the sum of fifteen dollars per annum for each mile of railway it shall construct in the said nation. The money paid to the Secretary of the Interior under the provisions of this Act shall be disbursed by him in accordance with the laws and treaties now in force within said nation: *Provided*, That Congress shall have the right, so long as said lands are occupied and possessed by said nation, to impose such additional taxes upon said railway as it may deem just and proper for the benefit of said nation, and any Territory or State hereafter formed through which said railway shall have been established may exercise the like power as to such part of said railway as may lie within its limits. Said railway company shall have the right to survey and locate its railway immediately after the passage of this Act.

CHAP. 38.—An Act To grant the Fort Smith and Western Coal Railroad Company a right of way through the Indian Territory, and for other purposes.

Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled, That the Fort Smith and Western Coal Railroad Company, a corporation created under and by virtue of the laws of the State of Arkansas, be, and the same is hereby, vested and empowered with the right of locating, constructing, equipping, operating, using, and maintaining a railway, telegraph, and telephone line through the Indian Territory, beginning at a point to be selected by said company on the Western boundary line of the State of Arkansas, at or near the city of Fort Smith, Sebastian County, and running thence by the most practicable route through that part of the Indian Territory occupied by and known as the Choctaw Nation, in a south-westerly direction through the counties of Scullyville, Sans Bois, Gaines, and Tobucksy, to a point on the Missouri, Kansas and Texas Railway, in said Choctaw Nation, between McAlester and South Canadian, with a switch from a point on said line to form a connection with the Saint Louis and San Francisco Railway at a point on that railroad, to be located between Cedars Station and the Backbone Tunnel. And with the right to build in the line of said railroad, a bridge across the Poteau River, whose plan of construction shall be first approved by the Secretary of War.

SEC. 2. That a right of way of one hundred feet in width through said Indian Territory is hereby granted to the said Fort Smith and Western Coal Railroad Company, and a strip of land one hundred feet in width with a length of two thousand feet in addition to the right of way is granted for such stations as may be established, but no such grant shall be allowed but once in every ten miles of the road, no portion of which shall be sold or leased by the company, with the right to use such additional grants where there are heavy cuts or fills as may be necessary for the construction and maintenance of the roadbed, not exceeding fifty feet in width on each side of the right of way, or as much thereof as may be included in said cut or fill: *Provided*, That no more than such addition of land shall be taken for any one station: *Provided further*, That no part of the lands herein granted shall be used except in such manner and for such purposes only as shall be necessary for the construction and convenient operation of said railway, telegraph, and telephone lines, and when any portion thereof shall cease to be used such portion shall revert to the said Choctaw Nation.

SEC. 3. That before said railway shall be constructed through any lands held by individual occupants according to laws, customs, or usages of the Choctaw Nation through which it may be constructed, full compensation shall be made to such occupant for all property to be taken or damage done by reason of the construction of said railway. In case of failure to make amicable settlement with any occupant, such compensation shall be determined by the appraisalment of three disinterested referees, to be appointed by the President of the United States, who, before entering upon the duties of their appointment, shall take and subscribe before competent authority an oath that they will faithfully and impartially discharge the duties of their appointment, which oath, duly certified, shall be returned with their award. In case the referees can not agree, then any two of them are authorized to make the award. Either party being dissatisfied with the finding of the referees shall have the right, within ninety days after the making of the award and notice of the same, to appeal by original petition to the United States district court for the central district of the Indian Territory, sitting at the place nearest and most convenient to the property sought to be condemned, where the case shall be tried de novo. When proceedings have been commenced in court the railway shall pay double the amount of the award into court to abide the judgment thereof, and then have the right to enter upon the property sought to be condemned, and proceed with the construction of the railway. Each of said referees shall receive for his services the sum of four dollars per day for each

day they are engaged in the trial of any case submitted to them under this Act. Witnesses shall receive the usual fees allowed by the courts of said Choctaw Nation. Costs, including compensation of the referees, shall be made a part of the award and be paid by said railway company.

SEC. 4. That said railway company shall not charge the inhabitants of said Territory a greater rate of freight than the rate authorized by the laws of the State of Arkansas for services or transportation of the same kind: *Provided*, That the passenger rates on said railway shall not exceed three cents a mile. Congress hereby reserves the right to regulate the charges for freight and passengers on said railway and messages on said telegraph and telephone lines until a State government shall exist in said Territory, within the limits of which said railway or part thereof shall be located, then such State government shall be authorized to fix and regulate the cost of transportation of persons and freight within their respective limits by said railway. Congress expressly reserves the right to fix and regulate at all times the cost of all transportation by said railway whenever such transportation shall extend into more than one State: *Provided, however*, That the rate of such transportation of passengers, local or interstate, shall not exceed those above expressed: *And provided further*, That said railway company shall carry the mail at such price as Congress may by law provide, and until such rate is fixed by law the Postmaster-General may fix the rate of compensation.

SEC. 5. That said railway company shall pay to the Secretary of the Interior, for the benefit of the Choctaw Nation, through whose lands said railway may be located, the sum of fifty dollars, in addition to the compensation provided for by this Act, for property taken or damaged by the construction of the railway for each mile of railway that it may construct in said Territory, said payment to be made in installments of five hundred dollars as each ten miles of road is graded. Said company shall also pay, as long as said Territory is owned and occupied by the Indians in common, to the Secretary of the Interior the sum of fifteen dollars per annum for each mile of railway it may construct in said Territory. The money paid to the Secretary of the Interior under the provisions of this Act shall be paid over to the Choctaw Nation: *Provided*, That Congress shall have the right, so long as their lands are occupied or possessed by the citizens of the Choctaw Nation in common, to impose such additional taxes upon said railway as it may deem just and proper for their benefit: *Provided further*, That if the general council of the Choctaw Nation shall, within two months after the filing of maps of definite location, as set forth in section six of this Act, dissent from the allowances provided for in this section, and shall certify the same to the Secretary of the Interior, then all compensation to be paid to said Choctaw Nation under the provisions provided in this Act shall be determined as provided in section three for the determination of the compensation to be paid to the individual occupants of the land, with the right to appeal to the courts upon the same terms, conditions, and requirements as therein provided: *Provided further*, That the amount awarded or adjudged to be paid by said railway company to said Choctaw Nation shall be in lieu of the compensation the said nation will be entitled to receive under the provisions of this section. Nothing in this Act shall be construed to prohibit Congress from imposing taxes upon said railway, or any Territory or State hereafter formed through which said railway shall have been established, from exercising the same power as to such part of said railway as may lie within its limits. Said railway company shall have the right to survey and locate its railway immediately after the passage of this Act: *Provided, however*, That if said right of way shall pass over or through any land allotted to an Indian in accordance with any law or treaty, it shall be the duty of the Secretary of the Interior to provide for obtaining the consent of said allottee or allottees to said right of way, and to fix the amount of compensation to be paid said allottees for the right of way

An adverse decision by the Secretary of the Interior on the bona fides of such claimant shall not be conclusive of his rights, and if such claimant, or one claiming to be a bona fide purchaser, but who has not submitted his claim to the Secretary of the Interior, is made a party to such suit, and if found by the court to be a bona fide purchaser, the court shall decree a confirmation of the title, and shall render a decree in behalf of the United States against the patentee, corporation, company, person, or association of persons for whose benefit the certification was made for the value of the land as hereinbefore provided. Any bona fide purchaser of lands patented or certified to a railroad company, and who is not made a party to such suit, and who has not submitted his claim to the Secretary of the Interior, may establish his right as such bona fide purchaser in any United States court having jurisdiction of the subject-matter, or at his option, as prescribed in sections three and four of chapter three hundred and seventy-six of the Acts of the second session of the Forty-ninth Congress.

Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled, That the Saint Louis and Oklahoma City Railroad Company, a corporation created under and by virtue of the laws of Oklahoma Territory, be, and the same is hereby, invested and empowered with the right of locating, constructing, owning, equipping, operating, using, and maintaining a railway and telegraph and telephone line through the Indian Territory, beginning at a point to be selected by said railway company at or near Sapulpa, in the Indian Territory, and running through the said Territory and the Territory of Oklahoma by way of Chandler and Oklahoma City to a point on Red River at or near the west line of the Kiowa and Comanche Reservation, with the right to construct, use, and maintain such tracks, turn-outs, and sidings as said company may deem it to their interest to construct.

Saint Louis and Oklahoma City Railroad Company granted right of way, Indian and Oklahoma Territories.

SEC. 2. That said corporation is authorized to take and use for all purposes of a railway, and for no other purpose, a right of way one hundred feet in width through said Indian Territory and Territory of Oklahoma, and to take and use a strip of land one hundred feet in width, with a length of two thousand feet, in addition to right of way, for stations, for every ten miles of road, with the right to use such additional ground where there are heavy cuts or fills as may be necessary for the construction and maintenance of the roadbed, not exceeding fifty feet in width on each side of said right of way, or as much thereof as may be included in said cut or fill: *Provided*, That no more than said addition of land shall be taken for any one station: *Provided further*, That no part of the lands herein authorized to be taken shall be sold by the company, and they shall not be used except in such manner and for such purposes only as shall be necessary for the construction and convenient operation of said railway, telegraph, and telephone lines; and when any portion thereof shall cease to be used, such portion

shall revert to the nation or tribe of Indians from which the same shall have been taken.

Damages to individuals.

SEC. 3. That before said railway shall be constructed through any lands held by individual occupants according to the laws, customs, and usages of any of the Indian nations or tribes through which it may be constructed, or by allotments under any law of the United States or agreement with the Indians, full compensation shall be made to such occupants for all property to be taken or damage done by reason of the construction of such railway. In case of failure to make amicable settlement with any occupant, such compensation shall be determined by the appraisement of three disinterested referees, to be appointed, one (who shall act as chairman) by the President, one by the chief of the nation to which said occupant belongs, or, in case of an allottee, by said allottee or by his duly authorized guardian or representative, and one by said railway company, who, before entering upon the duties of their appointment, shall take and subscribe, before a district judge, clerk of a district court, or United States commissioner, an oath that they will faithfully and impartially discharge the duties of their appointment, which oath, duly certified, shall be returned with their award to and filed with the Secretary of the Interior within sixty days from the completion thereof; and a majority of said referees shall be competent to act in case of the absence of a member, after due notice. And upon the failure of either party to make such appointment within thirty days after the appointment made by the President, the vacancy shall be filled by the district judge of any United States court in the Indian Territory, or the Territory of Oklahoma, upon the application of the other party. The chairman of said board shall appoint the time and place for all hearings within the nation to which such occupant belongs. Each of said referees shall receive for his services the sum of four dollars per day for each day they are engaged in the trial of any case submitted to them under this Act, with mileage at five cents per mile actually traveled. Witnesses shall receive the usual fees allowed by the courts of said nations and the courts of Oklahoma Territory. Costs, including compensation of the referees, shall be made a part of the award, and be paid by such railway company. In case the referees can not agree, then any two of them are authorized to make the award. Either party being dissatisfied with the finding of the referees shall have the right, within ninety days after making the award and notice of the same, to appeal by original petition to any district court in the Indian Territory, or Oklahoma Territory, which court shall have jurisdiction to hear and determine the subject-matter of said petition. If, upon the hearing of said appeal, the judgment of the court shall be for a larger sum than the award of the referees, the cost of said appeal shall be adjudged against the railway company. If the judgment of the court shall be for the same sum as the award of the referees, then the cost shall be adjudged against the appellant. If the judgment of the court shall be for a smaller sum than the award of the referees, then the costs shall be adjudged against the party claiming damages. When proceedings have been commenced in court, the railway company shall pay double the amount of the award into court to abide the judgment thereof, and then have the right to enter upon the property sought to be condemned and proceed with the construction of the railway.

Said railway company shall have the right to survey and locate its railway immediately after the passage of this Act.

SEC. 6. That said company shall cause maps, showing the route of its located lines through said Territories, to be filed in the office of the Secretary of the Interior, and also to be filed in the office of the principal chiefs of each of the nations or tribes through whose lands said railway may be located; and after the filing of said maps no claim for a subsequent settlement and improvement upon the right of way shown by said maps shall be valid as against said company: *Provided,* That a map showing the entire line of the road in the Indian Territory shall be filed and approved before the work of construction shall commence.

SEC. 7. That the officers, servants, and employees of said company necessary to the construction and management of said railway shall be allowed to reside, while so engaged, upon such right of way, but subject to the provisions of the Indian intercourse laws, and such rules and regulations as may be established by the Secretary of the Interior in accordance with said intercourse laws.

occupants for all property to be taken or damages done by reason of the construction of such railway. In case of failure to make amicable settlement with any occupant such compensation shall be determined by the appraisal of three disinterested persons or referees, to be appointed, one, who shall act as chairman, by the President, one by the chief of the nation to which said occupant belongs, or in case of an allottee, by said allottee or by his duly authorized guardian or legal representative, and one by said railway company, who, before entering upon the duties of their appointment, shall take and subscribe, before a district judge, clerk of the district court, or United States commissioner, an oath that they will faithfully and impartially discharge the duties of their appointment, which oath, duly certified, shall be returned with their award to and filed with the Secretary of the Interior within sixty days from the completion thereof; and a majority of said referees shall be competent to act in case of the absence of a member after due notice; and upon the failure of either party to make such appointment within thirty days after the appointment made by the President, the vacancy shall be filled by the district judge of the court held at Fort Smith, Arkansas, upon the application of the other party. The chairman of said board shall appoint the time and place for all hearings within the nation to which the occupant belongs. Each of said referees shall receive for his services the sum of four dollars per day for each and every day they are engaged in the trial of any case submitted to them under this Act, with mileage of five cents per mile. Witnesses shall be allowed the usual fees allowed by the courts of said nation. The costs, including the compensation of the referees, shall be made a part of the award, and to be paid by said railway company. In case the referees can not agree, then two of them are authorized to make the award. Either party being dissatisfied with the findings of the referees shall have the right, within ninety days after the making of the award and notice of the same, to appeal by original petition to the district court for the northern division of the Indian Territory exercising jurisdiction over the territory in which the lands sought to be condemned are situate, which court shall have jurisdiction to hear and determine the subject-matter of said petition according to the laws of the State of Arkansas providing for the determining of damages when property is taken for railway purposes. If, upon the hearing of said appeal, the judgment of the court shall be for a larger sum than the awards of the referees, the costs of said appeal shall be adjudged against the railway company. If the judgment of the court shall be for the same sum as the award of the referees, then the costs shall be adjudged against the appellant. If the judgment of the court shall be for a smaller sum than the award of the referees, then the cost shall be adjudged against the party claiming damages. When proceedings have been commenced in court the railway company shall pay double the amount of the award into court to abide the judgment thereof, and then have the right to enter upon the property sought to be condemned and proceed with the construction of the railway.

SEC. 4. That the said company shall not charge the inhabitants of said Territory a greater rate of freight than the rate authorized by the laws of the State of Arkansas for services or transportation of the same kind: *Provided*, That the passenger rate shall not exceed three cents per mile. Congress hereby reserves the right to regulate the charges for freight and passengers on said railway and of messages on said telegraph and telephone lines until State governments are formed and shall exist in said Territory within the limits of which said railway, or a part thereof, shall be located, and then such State government shall be authorized to fix and regulate the cost of transportation of persons and freight within their respective limits by said railway; but Congress expressly reserves the right to fix and regulate at all times the cost of such transportation by said railway company whenever such transportation shall extend from one State into another, or shall extend into more than one State: *Provided*, That the rate of such transportation

ARTICLE I.

Lands relinquished.

For and in consideration of the sum to be paid and the obligations assumed on the part of the United States, as hereinafter set forth, said Indians of the Fort Belknap Reservation hereby convey, relinquish, and release to the United States all their right, title, and interest in and to that portion of their present reservation, in the State of Montana, lying and being within the following-described lines, to wit: Beginning at the 54-mile boundary monument, at a point about the middle of the crest of Mission Butte, and following a straight line, bearing (magnetic) north 17 degrees 30 minutes west, to the highest point on a limestone ridge on the south side of the north fork of People's Creek, and running at right angles to the course of said creek at this point; thence in a straight line, bearing (magnetic) north 2 degrees 45 minutes west, to a rounded, timbered knob on the crest of the limestone reef on the north side of the north fork of People's Creek, and parallel with its general course; thence easterly, following the crest of the last-mentioned limestone reef north of the north fork of People's Creek, to a low rounded hill on said limestone reef, where it dips down to the valley of Lodge Pole, or Red Mountain Creek; thence in a straight line, north 74 degrees east (magnetic) to the wooded limestone ridge known as Travois Butte, where a line drawn from the summit of Granite Butte (the peak south of the 61½ mile boundary monument) north 15 degrees east (magnetic) would intersect it; thence along said straight line to the southern boundary line of the present reservation; thence along said southern boundary line of the present reservation to the point of beginning.

ARTICLE II.

Consideration.

For and in consideration of the conveyance, cession, and relinquishment hereinbefore made, the United States hereby covenants and agrees to advance and expend during the period of four years, beginning from and after the expiration of the payments provided for in the

agreement made between the parties hereto on the eleventh day of February, A. D. eighteen hundred and eighty-seven, and ratified by Congress on the first day of May, A. D. eighteen hundred and eighty-eight, under the direction of the Secretary of the Interior for the Indians, the sum of three hundred and sixty thousand dollars. It is agreed that the said money shall be deposited in the Treasury of the United States immediately upon the expiration of the payments under the said agreement of 1887, to bear interest at the rate of four per centum per annum, and there shall be expended the sum of ninety thousand dollars yearly, or so much thereof as may be necessary, as hereinafter provided. It is provided that any surplus accumulated under and remaining at the expiration of payments under the agreement of 1887 shall also bear interest at the rate of four per centum per annum.

Vol. 25, p. 133.

Such sums, or so much thereof as may be necessary in any one year, shall be expended in the purchase of cows, bulls, and other live stock, goods, clothing, subsistence, agricultural implements; in providing employees, in the education of Indian children, in procuring medicine and medical attendance, in the care and support of the aged, sick, and infirm, and helpless orphans; in the erection and keeping in repair of such new agency and school buildings, mills, blacksmith, carpenter and wagon shops, as may be necessary; in assisting the Indians to build and keep in repair their houses, enclose and irrigate their farms, and in such other ways as may best promote their civilization and improvement.

ARTICLE III.

It is agreed that in the employment of all agency and school employees preference in all cases be given to Indians residing on the reservation, who are well qualified for such positions, and that all cattle issued to said Indians for stock-raising purposes, and their progeny, shall bear the brand of the Indian Department, and shall not be sold, exchanged, or slaughtered except by the consent of the agent in charge, until such time as this restriction shall be removed by the Commissioner of Indian Affairs.

Employment of Indians, etc.

ARTICLE IV.

In order to encourage habits of industry and to reward labor, it is further understood and agreed that in the giving out or distribution of cattle or other stock, goods, clothing, subsistence, and agricultural implements, as provided in Article II, preference shall be given to Indians who endeavor by honest labor to support themselves, and especially to those who in good faith undertake the cultivation of the soil and engage in pastoral pursuits as a means of obtaining a livelihood, and the distribution of these benefits shall be made from time to time in such manner as shall best promote the objects specified.

Distribution of cattle, etc.; preferences.

ARTICLE V.

As the scarcity of water on this reservation renders the pursuit of agriculture difficult and uncertain, and since the reservation is well adapted to stock raising, and it seems probable that the main reliance of these Indians for self-support is to be found in cattle raising, it is agreed that during the existence of this agreement no allotments of land in severalty shall be made to them, but that this whole reservation shall continue to be held by these Indians as a communal grazing tract, upon which their herds may feed undisturbed; and that after the expiration of this agreement the land shall continue to be so held until such time as a majority of the adult males of the tribes shall request in writing that allotment in severalty shall be made of their lands: *Provided*, That any member of the tribes may, with the approval of the agent in charge, fence in such area of land as he and the members of

Stock raising, etc.

his family would be entitled to under the allotment act, and may file with the agent a description of such land and of the improvements that he has made on the same, and the filing of such description shall give the said member of the tribes the right to take such land when allotments of the lands in severalty shall be made.

ARTICLE VI.

Surveys, etc.

So soon as this agreement shall have received the approval of Congress, the boundary lines described in Article I shall be surveyed, designated, and marked by monuments not more than one-half mile apart. The expense of such survey shall be borne by the United States, but the unskilled laborers employed in the work shall be hired from among the Indians residing on this reservation.

Such survey and the markings of the above-described boundary lines shall be done immediately—not later than ninety days after the approval of this agreement by Congress—and completed as speedily as possible, and the ceded portion of the reservation shall not be thrown open to occupancy by the whites until after the new boundaries of the reservation shall have been established and marked.

ARTICLE VII.

Prior claims.

It is further agreed and provided that none of the money realized from the sale of this land shall be applied to the payment of any judgment which has been or may hereafter be rendered upon any claim for damages because of depredations committed by said Indians prior to the date of this agreement.

ARTICLE VIII.

Former agreement continued.

All of the provisions of the agreement between the parties hereto, made February 11, 1887, not in conflict with the provisions of this agreement, are hereby continued in full force and effect.

ARTICLE IX.

Meaning of "Indian."

It is understood and declared that whenever the word Indian is used in this agreement it includes mixed bloods as well as full bloods.

ARTICLE X.

Ratification.

This agreement shall not be binding upon either party until ratified by Congress.

AGREEMENT WITH THE INDIANS OF THE BLACKFEET INDIAN RESERVATION IN MONTANA.

SEC. 9. Whereas William C. Pollock, George Bird Grinnell, and Walter M. Clements, commissioners on the part of the United States, did on the twenty-sixth day of September, anno Domini eighteen hundred and ninety-five, conclude an agreement with the Indians of the Blackfeet Reservation, in the State of Montana, which said agreement is in words and figures as follows (Senate Document Numbered One hundred and eighteen, Fifty-fourth Congress, first session), to wit:

Agreement with Blackfeet Reservation Indians.

Agreement concluded September twenty-sixth, eighteen hundred and ninety-five, with the Indians of the Blackfeet Reservation, in Montana, by William C. Pollock, George Bird Grinnell, and Walter M. Clements, commissioners.

This agreement, made and entered into the twenty-sixth day of September, anno Domini eighteen hundred and ninety-five, by and between William C. Pollock, George Bird Grinnell, and Walter M. Clements, commissioners on the part of the United States, and the undersigned Indians, both full bloods and mixed bloods, residing upon and attached to the Blackfeet Indian Reservation, in the State of Montana, the same constituting a majority of the male adult Indians belonging upon said reservation, both full bloods and mixed bloods, the latter's rights to

Commissioners.

participate in all business proceedings of said tribe and to share in all the benefits accruing to said tribes from a sale of land or otherwise being hereby recognized as equal to the full bloods, witnesseth that:

ARTICLE I.

Lands relinquished. For and in consideration of the sums to be paid and the obligations assumed upon the part of the United States, as hereinafter set forth, said Indians of the Blackfeet Reservation hereby convey, relinquish, and release to the United States all their right, title, and interest in and to that portion of their present reservation in the State of Montana lying and being west of the following-described line, to wit:

Beginning at a point on the northern boundary of the reservation due north from the summit of Chief Mountain, and running thence south to said summit; thence in a straight line to the most northeasterly point of Flat Top Crag; thence to the most westerly of the mouths of Divide Creek; thence up said creek to a point where a line drawn from the said northeasterly point of Flat Top Crag to the summit of Divide Mountain intersects Divide Creek; thence to the summit of Divide Mountain; thence in a straight line to the western extremity of the lower Two Medicine Lake; thence in a straight line to a point on the southern line of the right of way of the Great Northern Railway Company four miles west of the western end of the railway bridge across the north fork of the Two Medicine River; thence in a straight line to the summit of Heart Butte, and thence due south to the southern line of the present reservation: *Provided*, That said Indians shall have,

Reservations. and do hereby reserve to themselves, the right to go upon any portion of the lands hereby conveyed so long as the same shall remain public lands of the United States, and to cut and remove therefrom wood and timber for agency and school purposes, and for their personal uses for houses, fences, and all other domestic purposes: *And provided further*,

Hunting and fishing. That the said Indians hereby reserve and retain the right to hunt upon said lands and to fish in the streams thereof so long as the same shall remain public lands of the United States under and in accordance with the provisions of the game and fish laws of the State of Montana.

ARTICLE II.

Consideration. For and in consideration of the conveyance, cession, and relinquishment hereinbefore made the United States hereby covenants and agrees to advance and expend during the period of ten years beginning from and after the expiration of the payments provided for in the agreement made between the parties hereto on the eleventh day of February, A. D. eighteen hundred and eighty-seven, and ratified by Congress on the first day of May, A. D. eighteen hundred and eighty-eight, under the direction of the Secretary of the Interior for the Indians, both full bloods and mixed bloods, now attached to and receiving rations and annuities at the Blackfeet Agency, and all who shall hereafter be declared by the tribes located upon said reservation, with the approval of the Secretary of the Interior, entitled to membership in those tribes, the sum of one million five hundred thousand (\$1,500,000.00) dollars.

Vol. 25, p. 133.

Money payments. It is agreed that said money shall be paid as follows: The first year after the expiration of payments under the agreement of eighteen hundred and eighty-seven (1887), three hundred thousand (\$300,000.00) dollars, one-half of which shall be deposited in the United States Treasury and bear interest at four per centum per annum, and one-half, or so much thereof as shall be necessary, shall be expended as hereinafter provided; and annually thereafter for eight years the sum of one hundred and fifty thousand (\$150,000.00) dollars: *Provided*, That any surplus accumulated under and remaining at the expiration of the agreement of 1887, and any surplus that may remain from any annual payment provided for herein, shall also be placed in the United States Treasury to the credit of said Indians, and shall bear interest at the

rate of four per centum per annum. Such sums, or so much thereof as may be necessary in any one year, shall be expended in the purchase of cows, bulls, and other live stock, goods, clothing, subsistence, agricultural implements, in providing employees, in the education of Indian children, in procuring medicine and medical attendance, in the care and support of the aged, sick, and infirm, and of helpless orphans, in the erection and keeping in repair of such new agency and school buildings, mills, blacksmith, carpenter, and wagon shops as may be necessary, in assisting the Indians to build and keep in repair their houses, inclose and irrigate their farms, and in such other ways as may best promote their civilization and improvement.

ARTICLE III.

It is agreed that in the employment of all agency and school employees preference in all cases be given to Indians residing on the reservation, who are well qualified for such positions; and that all cattle issued to said Indians for stock-raising purposes, and their progeny, shall bear the brand of the Indian Department, and shall not be sold, exchanged, or slaughtered, except by the consent of the agent in charge, until such time as this restriction shall be removed by the Commissioner of Indian Affairs.

Employment of Indians, etc.

ARTICLE IV.

In order to encourage habits of industry and to reward labor, it is further understood and agreed that, in the giving out or distribution of cattle or other stock, goods, clothing, subsistence, and agricultural implements, as provided in Article II, preference shall be given to Indians who endeavor by honest labor to support themselves, and especially to those who in good faith undertake the cultivation of the soil and engage in pastoral pursuits as a means of obtaining a livelihood, and the distribution of these benefits shall be made from time to time, in such manner as shall best promote the objects specified.

Distribution of cattle, etc.; preferences.

ARTICLE V.

Since the situation of the Blackfeet Reservation renders it wholly unfit for agriculture, and since these Indians have shown within the past four years that they can successfully raise horned cattle, and there is every probability that they will become self-supporting by attention to this industry, it is agreed that during the existence of this agreement no allotments of land in severalty shall be made to them, but that this whole reservation shall continue to be held by these Indians as a communal grazing tract upon which their herds may feed undisturbed; and that after the expiration of this agreement the lands shall continue to be held until such time as a majority of the adult males of the tribe shall request in writing that allotment in severalty shall be made of their lands: *Provided*, That any member of the tribe may, with the approval of the agent in charge, fence in such area of land as he and the members of his family would be entitled to under the allotment act, and may file with the agent a description of such land and of the improvements that he has made on the same, and the filing of such description shall give the said members of the tribe the right to take such land when allotments of the land in severalty shall be made.

Stock raising, etc.

ARTICLE VI.

So soon as this agreement shall have received the approval of Congress the boundary lines described in Article I shall be surveyed and designated by two engineers, one of whom shall be selected by the Indians and one by the Secretary of the Interior; the said boundaries shall at once be marked by monuments, not more than one-half mile apart; the points at the mouth of Divide Creek and the westernmost extremity of the lower Two Medicine Lake, after they have been

Surveys, etc.

marked, shall be fixed and remain unchanged, no matter what alterations may hereafter take place in the course of said creek, or in the level of said lake. The expense of such survey shall be shared equally between the United States and the tribes occupying this reservation, but the unskilled laborers employed in the work shall be hired from among the Indians residing on this reservation.

Such survey and the marking of the above-described boundary lines shall be begun immediately—not later than ninety days after the approval of this agreement by Congress—and completed as speedily as possible, and the ceded portion of the reservation shall not be thrown open to occupancy by the whites until after the new boundaries of the reservation shall have been established and marked.

ARTICLE VII.

Rights of way.

It is further agreed that whenever, in the opinion of the President, the public interests require the construction of railroads or other high-ways, telegraph or telephone lines, canals and irrigating ditches, through any portion of this reservation, right of way shall be and is hereby granted for such purposes, under such rules, regulations, limitations, and restrictions as the Secretary of the Interior may prescribe; the compensation to be fixed by said Secretary and by him expended for the benefit of the Indians.

ARTICLE VIII.

Prior claims.

It is further agreed and provided that none of the money realized from the sale of this land shall be applied to the payment of any judgment which has been or may hereafter be rendered upon any claim for damages because of depredations committed by said Indians prior to the date of this agreement.

ARTICLE IX.

Former agreement continued.

The provisions of Article VI of the agreement between the parties hereto, made February 11, 1887, are hereby continued in full force and effect, as are also all the provisions of said agreement not in conflict with the provisions of this agreement.

ARTICLE X.

Meaning of "Indian."

It is understood and declared that wherever the word Indian is used in this agreement it includes mixed bloods as well as full bloods.

ARTICLE XI.

Ratification

This agreement shall not be binding upon either party until ratified by Congress.

This map shall be accompanied by another, drawn on the scale of one inch to two hundred feet, giving for a space of one-half mile above the line of the proposed bridge and one-quarter mile below an accurate representation of the bottom of the river, by contour lines five feet apart, determined by accurate soundings, and also showing over the whole width of this part of the river the force and direction of the currents at low water, at high water, and at least one intermediate stage by triangulated observations on suitable floats. The maps shall also show the location of other bridges in the vicinity, and shall give such information as the Secretary of War may require for a full and satisfactory understanding of the subject; and the construction of the proposed bridge shall not be commenced until the location and plans thereof are approved by the Secretary of War.

SEC. 8. That any bridge constructed under the authority of this Act shall be built under the general supervision of the Secretary of War, and no changes or alterations in plans shall be made during the construction of said bridge or after its completion unless said changes or alterations conform to the provisions of this Act and are authorized by the Secretary of War. That such alterations and changes as may be required by the Secretary of War in said bridge, so as to preserve free and convenient navigation, shall be made under the direction of the Secretary of War, at the expense of the company or persons owning, controlling, or operating said bridge. That during original construction, or in carrying out any authorized changes, or repairs of said bridge, a navigable channel shall be preserved at the site of the bridge at all times, and the waterway of the river shall not be obstructed to a greater extent than is absolutely necessary, and such lights and buoys shall be kept on all cofferdams, piles, and so forth, as may be necessary for the security of navigation.
