All patents or other instruments of conveyance hereafter issued for lands under any irrigation project on the said Fort Belknap Indian Reservation, whether to individual Indians or to purchasers of Indian land, shall recite a lien for repayment of the irrigation charges, if any, remaining unpaid at the time of issuance of such patent or other instrument of conveyance, and such lien may be enforced or, upon payment of the delinquent charges, may be released by the Secretary of the Interior. In the case of lands under any project purchased in the bona fide belief on the part of the purchaser that by his purchase he acquired a right to have water from the project for the irrigation of the land purchased by him in the same manner as the Indian owner, the Secretary may, after notice to the Indians interested, determine the value of the land at the time of the purchase from the Indian, and give to the purchaser or his assigns credit on the charge for construction against the land to the amount of the difference between the price paid and the value as so determined, and shall withhold for the benefit of the tribe from the Indian or Indians of whom the purchase was made, an equal amount from any funds which may be due or distributable to them hereunder. Delivery of water to such land may be refused, within the discretion of the Secretary of the Interior, until all dues are paid: *Provided*, That no right to water or to the use of any irrigation ditch or other structure on said reservation shall vest until the owner of the land to be irrigated shall comply with such rules and regulations as the Secretary of the Interior may prescribe, and he is hereby authorized to prescribe such rules and regulations as may be deemed reasonable and proper for making effective the foregoing provisions: *Provided, however*, That in no case shall any allottee be required to pay either construction, operation, or maintenance charges for such irrigation privileges, or any of them, until water has been actually delivered to his allotment.

Nothing in this Act shall be construed to deprive any of said Indians of the Fort Belknap Reservation of the use of water appropriated and used by them for domestic purposes or for the necessary irrigation of their lands, or lands claimed and occupied or used by them, or any ditches, dams, flumes, or reservoirs constructed and used by them in the appropriation and use of said water. No Indian shall acquire any priority of right to any of the waters of said reservation as against any other Indian by priority of appropriation to an extent greater than the water necessary to the irrigation of forty acres.

Every person entitled to allotment on the Fort Belknap Indian Reservation shall before patent is issued designate as a homestead forty acres of irrigable land or three hundred and twenty acres of nonirrigable land, already allotted or to be allotted hereunder, which homestead shall remain inalienable during the lifetime of the allottee or the minority of his or her heirs. Designations for minors shall be made by their natural guardians, and in the event that any Indian shall fail to make such designation the Secretary of the Interior shall select for him a homestead, and all patents for such homestead shall recite that they are such.

Any and all minerals, including oil, gas, and lands chiefly valuable for the development of water power, granted or to be allotted hereunder are set aside as tribal property and such land may be leased or mining permits granted upon the request of the tribal council under such rules, regulations, and conditions as the Secretary of the Interior may prescribe, but no lease shall be made for a longer period than ten years, but the lessees shall have the right to renew thereof for a further period of ten years upon such terms and conditions as the

Secretary of the Interior may prescribe: *Provided, however,* That until the same shall be leased any Indian being the head of a family and having rights on the said reservation may take coal from any of the lands within the same for his own domestic use: *And provided further,* That at the expiration of fifty years from the date of approval of this Act the coal, oil, gas, or other mineral deposits upon or beneath the surface of said allotted or granted lands shall become the property of the individual allottee or his heirs, but the right is reserved to Congress to extend the period within which such reserved tribal rights shall expire.

*Provisos.*

SEC. 7. That sections sixteen and thirty-six of each township, being nonirrigable and not occupied or heretofore selected for allotment by any Indian except such lands in lieu of which the State has heretofore received indemnity under existing laws, are hereby granted to the State of Montana for school purposes: *Provided, however,* That for any lands thereof lost to the State by allotment, withdrawal, or otherwise under the provisions of this Act, the State may through its proper officers select as indemnity other unoccupied unreserved nonmineral and nonirrigable lands within such reservation, not exceeding two sections in any one township: *Provided further,* That all such selections by the State must be completed within one year after the approval of this Act, and be made with the view to preventing any final conflict between the claims of the State and the allotments and withdrawals provided for herein: *And provided further,* That the United States shall pay to the Indians of the reservation the sum of \$5 an acre for the lands thus granted to the State: *And provided further,* That all the children, being descendants of Indians entitled to rights on said reservation, shall be permitted to attend the public schools of said State on the same condition as the children of white citizens of said State.

**CHAP. 137.**—Joint Resolution To authorize payment to members of the Army and Navy who were employed as enumerators during the Fourteenth Decennial Census to take the census of persons in the Army and Navy.

Preamble.

Fourteenth Census.

Whereas it appears that in making an enumeration of persons in the Army and Navy for the Fourteenth Decennial Census, in the judgment of the Director of the Census it was impracticable to do otherwise than, with the official sanction of the Army and Navy, employ officers and enlisted men of the Army and Navy as enumerators, and that such officers and enlisted men were duly employed to make the enumeration and were promised

compensation at the rate of 3 cents for each person enumerated; and

Whereas the vouchers for such compensation have been disallowed by the accounting officers of the Treasury Department on the ground that payment thereof was unwarranted; and

Whereas it further appears that in the judgment of the Director of the Census the census of the military and naval forces was taken more accurately by reason of the assurance of compensation to such enumerators than if it had been taken under orders of the War Department: Therefore be it

*Resolved by the Senate and House of Representatives of the United States of America in Congress Assembled*, That the appointment of such enumerators be, and the same is hereby, validated and that the moneys appropriated for the Fourteenth Decennial Census are hereby made available for the payment of their services as such enumerators.
