### *Article I.*

Scope of convention.

The provisions of this convention shall relate only to parcels of mail matter to be exchanged by the system herein provided for, and shall in no way affect the arrangements now existing under the Universal Postal Convention, which will continue in force as heretofore; and all the agreements hereinafter contained shall apply exclusively to mails exchanged under these articles.

### *Article II.*

Articles admitted to the mails.

There shall be admitted to the mails exchanged under this convention: Articles of merchandise and mail matter (except letters, post cards, and written matter) of all kinds that are admitted under any conditions to the domestic mails of the country of origin, except that no parcel may exceed 10 kilograms (22 pounds) in weight, nor the following dimensions: Greatest length in any direction, 105 centimeters (3 feet 6 inches); greatest length and girth combined, 180 centimeters (6 feet); and parcels must be so wrapped or packed as to permit their contents to be easily examined by postmasters and customs officers, excepting only those articles whose admission in this manner is forbidden by the laws of the country of destination, due notice of which shall be mutually given by the postal authorities of Latvia and the United States, respectively.

Articles prohibited.

The following articles are prohibited: Publications which violate the copyright laws of the country of destination; poisons and explosive or inflammable substances; live or dead animals except dead insects and reptiles when thoroughly dried; fruits and vegetables which easily decompose, and substances which exhale a bad odor; lottery tickets, lottery advertisements and lottery circulars; all obscene or immoral articles; articles which may in any way damage or destroy the mails or injure the persons handling them; intoxicating liquors.

Freedom from inspection, etc.

All admissible articles of merchandise mailed in one country for the other or received in one country from the other shall be free from detention or inspection of any nature whatsoever, except such as is required for the collection of customs duties; and shall be forwarded by the most speedy means to their destination, being subject, however, in their transmission, to the laws and regulations of each country, respectively.
