## INVESTIGATING SALE, ETC., OF DAIRY PRODUCTS

Investigating sale, etc., of dairy products.  
Preamble.

Whereas an audit made by the Agricultural Adjustment Administration has revealed that distributors in four of the largest milksheds in the United States, for the five years ended December 31, 1933, made a net profit of 25.71 per centum on their net plant investment; and

Whereas this audit shows the net profits of distributors in each of the milksheds for the five-year period to be: Philadelphia (distributors handling 85 per centum of volume), 30.76 per centum; Boston (distributors handling 75 per centum of volume), 22.45 per centum; Saint Louis (distributors handling 67 per centum of volume), 14.64 per centum; and Chicago (distributors handling 90 per centum of volume), 25.84 per centum; and

Whereas during this same five-year period the wholesale price of milk sold by farmers declined 50 per centum, resulting in severe hardships and suffering to milk producers throughout the United States and strikes and violence in many rural and metropolitan centers; and

Whereas the aforesaid audit by the Agricultural Adjustment Administration has revealed net profits of milk distributors which tends to establish that similar conditions exist in other milksheds throughout the United States; and

Whereas an investigation in the District of Columbia pursuant to S. Res. 76, Seventy-third Congress, first session, revealed testimony which abundantly sustains the contention that over a period of years large milk distributors have attempted to create a monopoly in the District of Columbia, and largely as a result of these efforts farmers producing milk for the District of Columbia milkshed have received low returns for their product and have been placed at a serious disadvantage; and

Whereas the testimony adduced at hearings in the aforesaid investigation in the District of Columbia tends to prove that similar monopolistic efforts likewise exist in other milksheds in the United States; and

Whereas there is reason to believe that there exists a close tie between certain leaders of milk producers' cooperatives and milk distributors, which tie is unbeknown to milk producers and detrimental to their interests; and

Whereas the continuation of the practices now engaged in by milk distributors and certain leaders of milk cooperatives seriously endangers the efforts of the Agricultural Adjustment Administration and of the several States to alleviate and remedy the distress now widespread among dairy farmers in the United States, which distress if permitted to continue will result in the destruction of the already sorely pressed agricultural industry: Therefore be it

*Resolved by the House of Representatives (the Senate concurring),* That the Federal Trade Commission is authorized and directed to investigate conditions with respect to the sale and distribution of milk and other dairy products within the territorial limits of the United States by any person, partnership, association, cooperative, or corporation, with a view to determining particularly whether any such person, partnership, association, cooperative, or corporation is operating within any milkshed of the United States in such a manner as to substantially lessen competition or to tend to create a monopoly in the sale or distribution of such dairy products, or is a party to any conspiracy in restraint of trade or commerce in any such dairy products, or is in any way monopolizing or attempting to monopolize such trade or commerce within the United States or any part thereof, or is using any unfair method of competition in connection with the sale or distribution of any such dairy products, or is in any way operating to depress the price of milk sold by producers. The Federal Trade Commission shall report to the House of Representatives as soon as practicable the result of its investigations, together with its recommendations, if any, for necessary remedial legislation.
